MY PERSONAL COMMITMENT TO FAMILY BUSINESS LEADERS AND TO YOUR ADVISOR TEAM

Dear Family Business Leaders and Trusted Advisors -

My personal commitment to you began many years ago - long before our recent introduction - when I decided to become the most versatile Family Business Continuity and Startup/Exit Planning Attorney I could be.

I realized that to do this, I needed to pursue a non-traditional path for attorneys. I needed to understand Business first, and the Law second.

Growing up in a large family dedicated to Family Businesses was a great start. Business and Law Degrees from Creighton University were a big boost. But starting young and working with (and learning from) hundreds of great Family Business Leaders across the United States over the past 40+ years is what has truly helped me to develop insights into the world of Family Business Continuity and Exit Planning that only experience and “two ears” can bring.

Over the course of several years I have also worked with the nation's leading Business Succession and Exit Planning organizations (such as the Business Enterprise Institute and Exit Planning Institute) and Business Success, Leadership and Innovation organizations (such as Vistage International, Family Firm Institute, John Maxwell Leadership, CEO Space International, Secret Knock and Strategyzer). Through this experience I have developed the “**Fourth Quarter**” **Game Plan Program** (which is detailed in our “Ultimate Success Decision Guide For Family Business Leaders”).

On the next couple pages, I have described some of the experiences and training that have helped me to design the “**Fourth Quarter**” **Game Plan Program**. This has prepared me for this moment - to be able to work together effectively with you.

My personal commitment to you is to move ahead with the speed, clarity, decisiveness and purpose necessary to help you achieve what you want to accomplish next for yourself, your family and your colleagues - as you move through (and then beyond) your personal “Fourth Quarter” of your time in action.

I know that the families of each of your colleagues depend on the success of your Family Business for their careers and livelihoods just as your family does. Knowing this is what drives me to work hard towards the continued success of the Family Business you have dedicated your life to.

Sincerely,

Nick Niemann

FACE OF BUSINESS CONTINUITY AND SUCCESSION PLANNING

Nick Niemann • McGrath North Law Firm

“WHEN MY GRANDFATHER died unexpectedly in his sleep, I learned as a 13-year-old the value which he and his trusted advisors put into protecting his family, his loyal team and his growing supermarket business. His Business Continuity and Succession Plan has enabled our family’s business to profitably grow beyond his wildest dreams as the company approaches its 100th anniversary.”

For over 30 years, business owners across the country have trusted Nick Niemann to look into the future with them to decide on the actions needed to achieve what they value the most. All business

owners face much different personal, financial and business dynamics when they enter what Nick calls their personal “Fourth Quarter”.

“To continue to be successful, certain essential Fourth Quarter actions must be mastered.” The Business Continuity and Succession Planning program designed by Nick has been carefully crafted to accomplish these essential actions. OMAHA

A BIG PART OF MY COMMITMENT TO YOU

IS TO BE ON THE LEADING EDGE OF
BUSINESS MODEL INNOVATION
 (AS THE OMAHA CHAIR OF VISTAGE INTERNATIONAL
 DESCRIBES BELOW):

"I first met Nick Niemann when I brought the Vistage International CEO Peer Group program to Nebraska several years ago. I interviewed Nick to decide if I wanted him to serve as the Legal Counsel on our Trusted Advisor Board. I **came expecting to hear typical lawyer talk. Instead, what I quickly saw was a new breed of attorney.** Nick was soon also interviewing me. He wanted to know how Vistage could enhance the business and personal lives of its CEO members, how it could vastly improve the companies which joined it and how big I planned to grow our Nebraska presence.

"I quickly learned Nick was working with business strategists from 45 countries to co-create what would become known as Business Model Generation. This international initiative would introduce the world to the Business Model Canvas -- a powerful new technique for creating, re-designing, improving and pivoting a company's Business Model to achieve greater success. Nick was soon being asked to personally teach this profit system to over 850 Vistage CEOs and Key Executives throughout the U.S. and Canada. This remarkably versatile system is now being used by over 5,000,000 entrepreneurs and strategic thinkers around the world.

"As a former CEO of an international company, I've worked with many attorneys. But never one like Nick Niemann. **He is a business profit strategist first, who happens to also have an incisive legal mind.**

"So, I wasn't surprised when organizations like Secret Knock, one of the country's top programs for entrepreneurs, asked him to speak to their business leaders. Nor was I surprised when Inc. Magazine asked him to become part of their Launch! program for startup entrepreneurs. And I wasn't surprised when the founder of CEO Space International personally asked Nick to join their program.

"**Nick has that pioneer mindset which tirelessly explores ways to bring greater success to the business leaders he works with every day.** As I have told him: I know the work that goes into mastering something --- and you are a master!"

"Why do so many Family Businesses fail?"

Family Business Leaders need to be aware of 3 mindset bias traps, which Neuroscientists have named:

- **"Optimism Bias"**: When we falsely believe our chance of experiencing a positive outcome is higher or a negative event is lower, than it actually is (i.e. "Bad things won't happen to me; these only happen to others").
- **"Confirmation Bias"**: The tendency to search for, interpret and recall information in a way that supports what we already believe.
- **"Illusion of Control Bias"**: The tendency to overestimate how much control you have over the outcome of uncontrollable events.

Perhaps these are key reasons Jim Collins, best selling author of such books as *Why The Mighty Fall* and *Good To Great*, could say: "I've concluded that there are more ways to fall than to be great."

OUR FAMILY BUSINESS STORY

When we work with Family Business Leaders and other Trusted Advisors, we ask about your story and the story of your Family Business. We get to see the heart and soul of America's family entrepreneurs, that is, America's new breed of Family Business Pioneers.

We get to see your passion and your excellence. We get to see the grit and determination which drive you. We get to see the love and respect you have for your colleagues and for those you serve.

In short, we get to see the pioneer spirit which drives you and your team. Just as it has driven me and our team.

The first two Family Business Pioneers I learned from were my father, Ferd, Jr. and my grandfather, Ferd, Sr. Starting at age 8, they began teaching me about the family business interests in restaurants, supermarkets, real estate, manufacturing, warehousing, ranching, farming, and retail merchandising.

Growing up on a small farm in Quincy, Illinois, and being a part of the Niemann Family Businesses, was the perfect setting to begin to learn the ins and outs of Family Business culture, leadership, spunk, grit, drive and commitment.

Not all was rosy. Over the years a number of our family businesses faltered and failed, while others succeeded incredibly well. The family supermarket business which my grandfather started in 1917, and which my Dad and his brother carried forward, is now a 4th generation family business which continues to thrive today, serving thousands of families throughout the Midwest.

Throughout my life, I've seen firsthand the devastation that happens to a community and families when companies stall or fail and jobs are lost. The opportunity to do something about it is what attracted me to McGrath North Law Firm in the early 1980s.

When a business succeeds, so do its employees and their families. This served as the mission for Ray McGrath and Jack North, who founded our firm in 1959. This continues to inspire me and my colleagues at McGrath North as we work with community leaders and Family Business Pioneers to help create jobs and help build enduring industry-leading companies.

Now with over 60 attorneys deployed in over 80 practice areas, we are partnering with families, their businesses and their other Trusted Advisors in the U.S. to create incredible, lasting value.

For my part, I enjoy learning from the many Family Business Pioneers I am blessed to work with. I met my wife, Ann, then a nursing student, 45 years ago while attending Creighton University's College of Business. We enjoy passing on these family business values to our seven children and twenty-three grandchildren, as the next generation of pioneers take on tomorrow's many challenges and opportunities.

Business Leaders and their Trusted Advisors work with us because they get to know us, they like us and they trust us.

Q&A

“What if I don’t know how to start or just want a quick look at what kind of shape my Business (or my client’s Business) is in?”
See our Family Business Leader’s “Quick Start Action Plan” (in our Ultimate Success Decision Guide) and invest 24 minutes to answer its 24 questions.

“Why are Business Owners (and their Trusted Advisors) coming to you to work on their Fourth Quarter Game Plans (or Exit Plans)?”

Business Owners (and their Trusted Advisors) want to avoid “Train Wrecks.” They realize that significant risks exist to Business Owners and to their families, loyal team and communities when their personal “Fourth Quarter” isn’t addressed in time. We don’t just talk about impact. This program enables Business Owners and their Trusted Advisors to make an impact on the many lives of those you care about.

“Why should this be effective for us?”

Because we invest the time to ask the right questions and to listen carefully to what you value the most. Our business and professional experience, insights, affiliations, trusted strategies, understanding of family business dynamics, visual style, collaborative approach and proprietary system combine in a unique way to prioritize what’s important to you. This enables us to remove complexity, to get the job done right for you (or your Business client) and to overcome the frequent Fourth Quarter mistakes made by business owners. Together we discover what is really needed for your (or your client’s) Family and Company’s continued success.

“You are an attorney. I (or my Business client) already have an attorney. Can my (or my client’s) regular Corporate or Estate Planning Attorney handle this for us?”

As in other professions, more than a generalist is usually needed to best address Exit Planning or “Fourth Quarter” Planning. A special combination of business strategic thinking, family business continuity, asset protection, succession, exit, company sale/M&A and estate planning skills, training, experience, knowledge and mindset is recommended. This can be achieved by an Exit Planning Attorney or a Family Business Continuity Attorney from many years of experience, as well as active involvement in such organizations as Vistage International, CEO Space International, Business Enterprise Institute, Family Firm Institute, Strategyzer, and Exit Planning Institute. Corporate and estate planning attorneys do not necessarily pursue all of this, but they do easily work with us when Family Business Leaders (or their Trusted Advisors) decide to add us to your Advisor Team. This is common practice amongst professionals.

“Do you have access to other professionals and funding resources which may be needed to help us achieve the results we want?”

We have built a network of local, national and international professionals and funding resources who collaborate with us and our loyal clients. This helps provide the depth of additional talent, access and resources when necessary for a Business Owner’s Fourth Quarter success.

“How much time will this take?”

Respect for your time is one of the reasons we systematized this into a process that can easily be prioritized, quarterbacked and coordinated (working together with your other Trusted Advisors).

“Are there certain Main Plays almost every Business Owner should deploy first?”

Yes. From our [Profit Playbook](#) - The Profit Strategy Team. From our [Protection Playbook](#) - The Emergency Succession Plan. From our [Estate Playbook](#) - The Business Owner Estate Plan. From our [Succession Playbook](#) - The “House-In-Order” Checkup. This creates the necessary foundation to build on.

“Is my (or my client’s) Company too small or too big for you?”

Our threshold isn’t size. It’s attitude (meaning mindset). We work with a wide range of small, middle-market and large companies whose Leaders (and whose Trusted Advisors) share our mindset about taking the actions needed to keep the promises they’ve made to themselves, and their families, colleagues, stakeholders, customers and communities.

“You use the term Business Pioneers. Who is a Business Pioneer?”

Those of us in business meet Business Pioneers every day. Every Family Business Leader or Trusted Advisor who lives to explore and create new opportunities and to find new ways to advance the lives of their colleagues, stakeholders, customers, families and communities is a Business Pioneer in our book. In this age of massive disruption, if you, your leadership team and your successors are not Business Pioneers today, the odds that you and your Company will continue to be successful are remote. The “Business Chemistry” project illustrates the trend. It found that all CEOs have all 4 leadership styles (Pioneer, Driver, Guardian and Integrator), and that 51% of CEOs today are primarily Pioneers. Fast Company Magazine’s Annual Edition on the most innovative companies also illustrates the incredible pioneer mindset at new and old, small and big companies throughout the world.

“What is the Pioneer Mindset Initiative?”

Through our work with over 1,200 highly successful Family Business Pioneers, we’ve captured the many specific ways in which Business Pioneers think and act. We share this with a Company’s Leadership and aspiring leaders in our “Pioneer Mindset” Initiative program.

“Do you agree to work with everyone who is referred to you?”

No. Although the Trusted Advisors who recommend us to Business Leaders are normally very good at knowing we’ll be a fit for each other, we will each know this for sure only after we have visited.

“I am (or my client is) ready to sell the business now. Can you work with us?”

We work with family businesses, private companies, entrepreneurs, private equity groups, public companies, investment bankers, transaction intermediaries, business brokers, and others in a wide range of transactions. These include business purchases, business sales, joint ventures, ESOP transactions, spin offs, mergers, tender offers, recapitalizations, and reorganizations. Our M&A team has worked on transactions, both domestically (with transactions in nearly all 50 states) and internationally (with transactions in 6 of the 7 continents). We have worked on transactions ranging in size from a couple hundred thousand dollars to over two billion dollars. (Ideally, please call before you sign an agreement with an M&A Advisor or a Letter of Intent). Ask for our “Get My Company Ready to Be Sold” Protocol.

“What Key Direction Questions should we plan to discuss?”

1. **Who** - Who do you presently believe you will want to eventually transfer your business and duties to?
2. **What** - What part of the business (or businesses) do you presently believe you will eventually want to transfer or keep?
3. **Where** - Where are you taking your business to and then where will your next personal or business adventure be?
4. **When** - When do you presently believe you want to eventually exit or slow down from active duty and/or ownership?
5. **Why** - Why are you a business owner in the first place?
6. **How Much** - How much net cash-in-pocket do you presently believe you need or want to have when you eventually exit your business and how close are you to this goal?

“Do you work together with our Attorney, CPA, Financial/Insurance Advisor and other Trusted Advisors?”

Yes. More than ever before, professionals from different firms are combining their unique talents to achieve incredible results. Collaboration is the key. Teamwork creates the best solutions. Our program has been carefully designed to work in sync with your other Trusted Advisors (and, importantly, with any specific approach they may deploy as well).

– What if I have (or am) a non-attorney Exit Planning Advisor who will design the Exit Plan. Can you assist in implementing the Plan?”

I am a member of both the Business Enterprise Institute and the Exit Planning Institute, so I know both of their Exit Planning systems. I easily plug in to handle the legal matters to be addressed.

– “How (and when) do I discuss this with my family, key personnel or client?”

A common question. We’ll work with you on this.

– “Do you have time to work with us?”

By being careful in deciding who we agree to work with, my team and I have the time to work closely with the loyal Business Leaders and their Trusted Advisors who have placed their trust in us.

– “What should I do next?”

Either the Business Leader or Trusted Advisor can call to confirm we are clear to work together (e.g. no conflicts). We can then set up a confidential, no-obligation meeting or conference call. Our first meeting or conference call is to get to know each other and to begin to discuss critical questions. It is not a commitment by either of us to work together.

– “After we have visited, what will you want me to prepare or bring to the first meeting or conference call with me (or with my client)?”

Key Business Owner and Trusted Advisor. Your spouse is always welcome - your call. No other preparation for our first meeting or conference call is needed.

“I’m a Trusted Advisor for a Family Business. How do we discuss the possibility of working together? And can you provide me extra copies of this Guide to share with others?”

Just call my direct line: 402-633-1489 (or email me).

MY PERSONAL COMMITMENT IS TO SHARE WITH YOU THE BUSINESS SUCCESS AND INNOVATION STRATEGIES I LEARN FROM OTHER BUSINESS PIONEERS . . .

...Thank you to all of the Business Pioneers who we have learned from in continually innovating the "Fourth Quarter" Game Plan program - many of whom are pictured here.

What Do We Do?

How Are We Added To Your Advisor Team?

Achieving The Ultimate Success Needs More Than Just Basic Planning

It's About Seeing and Starting With Your Personal "Fourth Quarter First"

To Be And To Stay Successful For The Whole Game By Deploying Some Very Powerful, yet Simple, Concepts

"Fourth Quarter First" thinking is a very simple mindset. Yet, in practice, it's often overlooked. Too many Family Business Leaders are on the journey (perhaps already in the "Two-Minute Warning" or Overtime), but have no clear destination in mind (or they are missing the Main Plays needed to get there).

Together we simply focus on both the journey and the destinations you want for yourself, your family, your colleagues and your Family Business. We then address what's needed to actually get there. We "Begin with the end in mind" (i.e. "Fourth Quarter First"). And we live by the flexibility principle that "All plans are firm ... until changed."

Your "Fourth Quarter" Game Plan:

We know that Business Leaders have a lot of Trusted Advisors in their business lives. Trusted Advisors each have their reason or reasons for wanting to add us to the Team - based on the Mission ahead to be accomplished. I have illustrated these examples on the next page, based on the variety of ways I've been introduced to, and engaged by, Family Business Leaders throughout the United States.

How Are We Engaged?

Step 1. Introductory Call

An initial phone call from either the Family Business Leader or any of the Trusted Advisors (see next page), to discuss the possibility of working together.

Step 2. Conference

Meeting or video conference with the Family Business Leader and one or more Trusted Advisors to decide on and prioritize key objectives and Engagement Options (see below). Discuss whether you want to engage us and whether we want to be engaged. Fee Quote or Fee Estimate normally discussed.

Step 3. Engagement Letter

Short Engagement Letter which identifies the selected Engagement Option, along with a schedule of calls or steps, so that everyone can move forward with speed, clarity and purpose.

What Engagement Options Do We Offer? Your Choice:

- 1. **Full "Fourth Quarter" Game Plan**
 - Profit Playbook
 - Protection Playbook
 - Estate Playbook
 - Succession Playbook

("Let's design a complete Blueprint, then decide what and when to deploy")
- 2. **One of the Four Plans**

("Let's design a Blueprint for 1 Plan, then decide what and when to deploy")
- 3. **One or more "Main Plays" from the 4 Playbooks**

("Let's get started on some immediate priorities")
- 4. **The "Second Opinion" Protocol**

("Let's see where I'm at so far and go from there")
- 5. **The "Get My Company Ready To Be Sold" Protocol**

("It's been fun. But it's time")
- 6. **Monthly Retainer for TBD months**

("Let's start by investing in some high level exchange of ideas")
- 7. **Design Your Own Experience**

("I'd like to design my own experience of how we should work together")
- 8. **Implement Existing Plan**

("We want you as the Exit Planning Attorney to implement the legal aspects of the Succession, Continuity or Exit Plan designed by our Non-Attorney Exit Planning Advisor.")
- 9. **Quick Start**

("Let's just schedule some quick calls to begin deciding on our priorities and go from there.")

Optimal choice depends on the Role we play on the Advisor Team, based on the Trusted Advisor who introduced us.

Your Trusted Advisors

- Who Normally Introduces Us? -

- And Why? -

Over the years many Trusted Advisors have been introducing us to the nation's Family Business Leaders to ask us to be part of the Team. Here are some examples of Who and Why:

Spouse	Parents	Business-Active Children	Children Not Active In The Business
You are often the Family Business Leader's most trusted Trusted Advisor. In many ways you have helped build the Family and the Business. You want to be certain that your spouse is carefully considering all possible options - especially as he or she approaches his or her personal "Fourth Quarter" of time in action.	You have a special interest in the continuity and legacy of the Family Business, especially if it originated or was passed along from you. You have seen the ups and downs and want to see your family's continued success.	You want to see the successful continuity of the Family Business as you work to earn the opportunity to achieve your potential and help assure a timely and smooth transition occurs.	You want to be sure the Family Business Legacy is secure and that the Family Business continues to peacefully stay strong for the benefit of the whole family.
Non-Attorney Exit Planning Advisor	Leadership Team	CPA	Personal Financial Advisor
The Business Continuity, Succession, Transition or Exit Plan which you have carefully designed for a Family Business Leader now needs to be implemented – typically with preparation of key legal documents, and you prefer an Exit Planning Attorney who has the same training you have dedicated yourself to.	You are interested and vested in the continuing success of the Family Business and your colleagues, and you are appreciative of the opportunities your Family Business Leader has brought to you.	Because of your own professional expertise, you are quick to realize when additional expertise is now needed for the good of the Family and the longevity of the Family Business.	You've worked hard to grow the Family's personal investments. You don't want to see the Family Wealth diminish because of a slide in the Business or the lack of an effective Estate Plan, Asset Protection Plan or Succession Plan.
Life and Disability Insurance Advisor	P&C/D&O Insurance Advisor	Family Business Consultant	Business Friend
In helping assure the Family has the right cash, at the right time, upon death or disability, you know the importance of positioning Life and Disability Insurance with the right policy ownership (e.g. Company, personal or trust), with proper Estate and Income Tax design features.	As a key advisor to helping assure that life's unexpected events (e.g. litigation or accident claims) are properly insured, you know that proper Company Structure and Asset Protection tools need to go hand in hand with policy coverages, limits and exclusions.	In identifying Family Peace, Collaboration, Leadership and Culture Strategies, you know these need implementation through appropriate corporate/legal approvals, policies and agreements with someone who understands Family Business Dynamics.	You have had your own experience with your own Business and want to see the same success for your friend.
Strategic Planner	Peer Group Chair or Member	Business Coach	Banker
You know your Strategic Planning initiatives won't be effective without proper Leadership Team alignment and retention and proper Company Structure to achieve optimal Business Model design, pivots and execution.	As the Chair or Member of a Peer Group, you are typically quick to see what's missing and what's needed for long-term Business Continuity for the Family Business colleagues in your Group or on your Board.	You recognize that your efforts to improve the effectiveness of the Family Business Leaders you work with will only bear fruit if those Leaders are operating in a Business that is well-designed for future growth and continuity.	As a Commercial Loan Officer or Relationship Manager, you understand the importance of a solid Business Model, Leadership Team and Company Culture for achieving predictable company cash flow and debt service, as well as the need for careful Owner and Lender transitions.
Deal Maker <small>(Investment Banker, Transaction Intermediary, M&A Advisor or Business Broker)</small>	Corporate Attorney	Leadership Consultant	Trust Company
You have been engaged to go-to-market to sell a very viable company, and you want an attorney experienced in helping establish the deal terms and handling the deal documents. Or, you have a prospect which isn't yet ready to go-to-market, which needs our "Get My Company Ready To Be Sold" Protocol.	You have represented your client well for many years on various corporate legal matters and you recognize the new need to now bring in additional experience to work with you on your client's Business Continuity, Succession, or Exit Planning or Company Sale.	You know that leadership talent and skills can be developed. And you know the importance of fit and alignment. These are key to our "Fourth Quarter" Planning.	You have become the Corporate Trustee of a Trust which holds ownership of a Family Business, which you recognize as a fiduciary, has various Business Continuity, Succession and Exit Planning matters which now need to be addressed to preserve and grow value.
Board of Directors	Business Appraiser	Business or Industry Association	Estate Planning Attorney
You serve on a Board of Directors and, as part of your efforts to help guide the Company, as well as to fulfill your Fiduciary Duties, you recognize that the Owners have various Business Continuity, Succession and Exit Planning matters that need to be addressed to preserve and grow value.	In the course of doing a Business Appraisal, you recognize the opportunity for a stronger valuation if certain Business Model pivots and Business Continuity, Succession and Exit Planning actions are deployed.	You recognize the need for your Members to specifically address and deploy thoughtful Business Model pivots and Business Continuity measures, for the strength of your Members, your Association and your Community.	You have designed a beautiful Estate Plan for your Business Owner client and you recognize the new need to bring in additional experience to now work with you on your client's Business Continuity, Succession, or Exit Planning or Company Sale.
